

The merit of much
higher priced instruments
are centered in the admirable

WEBSTER PIANO

One feature of the Webster Piano proves its superiority most conclusively, and that is the manner in which it retains its beautiful, sustaining tone under constant use. That one merit has won preference for the Webster in many of our leading schools and colleges, and makes it most desirable where a piano is subjected to constant use.

The new models in the WEBSTER Piano are decidedly handsome in outline, and are elegantly finished. We are direct representatives of the manufacturers and sell at "factory" prices—\$350 to \$450, and can extend you the most liberal terms. Every WEBSTER Piano is fully guaranteed. Glad to have you call any day or evening and inspect the new models.
